PIERCING TEMPLATE FOR ASSEMBLING
THE PULL OUT REVOLVING MIRROR

Warnings!!!

Before assembling the mirror please check it has not been damaged or broken. In case of break do not assemble it but ask for its replacement.

1. Fix the sliding undercarriage (composed by n.1 couple of runners fixed onto the plate) to the wardrobe shoulder with self-tapping screws. Please, use the piercing template to pierce correctly.

2. Once the parts have been fixed to the wardrobe shoulders (as upon indicated) insert the adjustable bearing, to which the mirror is fixed. Be careful on inserting the turned pin into the inferior part of the mirror and the fillister screwhead with its relative washer into the superior part.

SUPERIOR PART

INFERIOR PART

3. Now the mirror is ready to be used. Please, remember to close it with the plastic handle to avoid accidental openings.

*FOR A CORRECT MOUNTING, MOUNT AS SHOWN IN PICTURE
N.1 THE FIXING PINS.
