

New Vertical Wall Bed Set

Save space with this new vertical wall bed set with a fully metal frame, wooden slats, and manually deploying legs.

Advantages/benefits

- ✓ This mechanism includes a locking system for when the bed is down, ensuring added safety and better performance
- ✓ Maximizes the space in a room.
- ✓ The mattress bracket holds the mattress in place.
- ✓ With the high load capacity, anyone can sleep safely.
- ✓ The many slats support the mattress and provide comfort similar to a traditional bed.
- ✓ The frame accepts standard mattress sizes.
- ✓ With a force of 600 to 900 Newton, the pistons confer a significant dynamic load capacity that lets you raise and lower the bed without risk.
- ✓ Quick and easy assembly.
- ✓ As comfortable as your own bed!
- ✓ One SKU for all parts!
