

Application

- Ideal product for all small spaces
- Solution for many rooms in the house: kitchen, entrance hall, closet.
- Installs in a cabinet instead of a drawer for example.

Advantages

- Allows to optimize the space in a small kitchen.
- Hidden in the cabinet when you don't need it (uses the space usually taken for a drawer).
- Winning duo when combined with a table extension (Naxo, Samo, Cheo)
- Designed to be installed in a cabinet of 450mm external width
- Made of heavy duty slides and a foldable aluminum leg.
- The top, which has to be made by the customer, is composed of 2 foldable parts.
- Aluminum color

Description

An amazing solution for small kitchens !

T-bench is a revolutionary solution. It's a foldable pull out bench, that can be used with one of the numerous Richelieu table extensions product line (Naxo, Samo, Cheo). T-bench offers an extension of around 870mm (34-1/4") with a weight capacity of 100kg (225lb)
