

# Extractible Table T-Able III

Functional side table ready in a fingertip

## Applications

- Complete system, only the top table have to be made by customer which harmonize with the existing counter top.
- Aluminum slides with a high weight capacity of 100kg (220 lbs) evenly distributed.
- To be installed in place of a drawer behind a front panel with hinges that tilt down allowing to pull out the table from the cabinet.
- Sturdy aluminum leg, extendable and foldable.
- The front top panel is held by dowels that keeps it well in place.
- The back top panel is fixed on the mechanism.
- Suitable for 600mm (23 5/8") cabinet width.
- Total extension reaching approximatively 789mm (31 1/16").

## Description

### An amazing solution for Small kitchens !

This extension table is a revolutionnary solution in the small spaces organization. Hidden in a dawner when not used, you just have to pull it out to gain working space on the counter top in a simple movement. Opla-Top offers an extension of approximatively 895mm (35 1/4") with a weight capacity of 100kg (220lb).

## Advantages

- Allows to increase the working space on the counter top in a small kitchen.
- Hidden in the cabinet when not needed (takes the same space normally used for a regular drawer).
- Double wiining solution when used with the extendable bench T-Bench # **4119194510**.
- Designed to be installed in a cabinet of 600mm (23 5/8") external width.
- The top panels have to be built by the customer.
- Aluminum finish.
