

Half Moon Lazy-Susan Rotating Tray

Content list:

- 1 chrome post (C)
- 2 positioning supports: A'' (top) and F (bottom)
- 2 half-moon shelves (B and E)
- 1 rubber ring (D)
- 1 hook (G) attached to the door and the shelf E
- Mounting hardware
- 1 cardboard tube of +/- 5 inches
- Cover cap (A')

Tools required for mounting:

- Screwdriver: Philips or square drive

Mounting Steps - Instructions:

This unit can be Left door mounted or Right (as shown here). The same instructions apply.

1. Install the lower positioning support F as described on the drawing.
2. Install lower shelf on post; the lower shelf E will rest directly on support F.
3. To determine height of upper shelf B you must slide the rubber ring D provided onto the post X. Use cardboard tube provided to push ring easily into position.
NOTE: Tapered side of ring should face top of pole. Remove cardboard tube and slide upper shelf B onto post X. Position securely on top of rubber ring D.
4. Place shelf assembly into cabinet by sliding post C into positioning support F.
5. Slide support A'' onto top of post C and fix securely to cabinet frame H.
6. Swing bottom tray E out to 90°-110° position. Hold shelf hook G in position as shown in assembly diagram. Mark location of hook G on door. Screw hook G onto position and carefully slide pin into slot on underside of tray E.
7. Install cover cap A'.
