ISTRUZIONI DI MONTAGGIO - ASSEMBLY INSTRUCTION

ISTRUZIONI DI MONTAGGIO NELLA VERSIONE DX ASSEMBLY INSTRUCTION RIGHT VERSION

1. Predisporre la struttura posteriore per il fissaggio e, una volta regolata l'altezza dei braccetti, serrare i grani e avvitare il tutto.

Prepare back structure for mounting and tighten grub screws and screw once adjusted brackets' height.

2. Posizionare la struttura laterale a filo mobile e avvitare.

Place side structure next to cabinet edge and screw.

3. Posizionare la dima P1, sul fondo del mobile e, marcare la posizione dei fori in base alla misura di proprio interesse, avvitare lo snodo.

Place template P1 of extent that needs on cabinet bottom and screw the joint once marked holes' positions.

4. Collegare il braccetto dello snodo alla struttura posteriore con l'apposita vite evitando il bloccaggio. La posizione della vite di collegamento determina +/- l'apertura del meccanismo.

Connect joint's bracket to the back structure through the special screw avoiding blockage. Special screw's position defines +/- opening mechanism.

ISTRUZIONI DI MONTAGGIO - ASSEMBLY INSTRUCTION

ISTRUZIONI DI MONTAGGIO NELLA VERSIONE SX

ASSEMBLY INSTRUCTION LEFT VERSION

1. Predisporre la struttura posteriore per il fissaggio e, una volta regolata l'altezza dei braccetti, serrare i grani e avvitare il tutto.

Prepare back structure for mounting and tighten grub screws and screw once adjusted brackets' height.

2. Posizionare la struttura laterale a filo mobile e avvitare.

Place side structure next to cabinet edge and screw.
(Let the lateral structure edge coincide with the cabinet edge and screw)

3. Posizionare la dima P1, della misura di proprio interesse, sul fondo del mobile e, marcata la posizione dei fori, avvitare lo snodo.

Place template P1 of extent that needs on cabinet bottom and screw the joint once marked holes' positions.

4. Collegare il braccetto dello snodo alla struttura posteriore con l'apposita vite evitando il bloccaggio. La posizione della vite di collegamento determina +/- l'apertura del meccanismo.

Connect joint's bracket to the back structure through the special screw avoiding blockage. Special screw's position defines +/- opening mechanism.

5. Posizionare le staffe sulla porta tramite la dima (P2) e fissarle.

Place brackets on the door through template (P2) and fasten them.

6. Inserire le staffe nella struttura anteriore ed avvitare.

Regolare l'inclinazione della porta allentando le viti ed agendo sui grani.

Insert brackets on front structure and screw them.

Adjust tilt of the door by loosening screws and acting on grub screws.

7. Regolare l'inclinazione della porta

allentando le viti ed agendo sui grani

Adjust tilt of the door by

loosening screws and acting on grub screws

8. Posizionare il fine corsa, la sua posizione determina +/- l'apertura della porta.

Place the end of stroke, its position defines +/- opening door.

9. Posizionare i cestelli.

Place the baskets.

MONTAGGIO COPRI STAFFA - COVER BRACKET ASSEMBLY

Montare il copri staffa dopo aver eseguito la regolazione
After the adjustment, assembly the cover bracket

SMONTAGGIO COPRI STAFFA - COVER BRACKET DISASSEMBLY

Per togliere il copri staffa, inserire il cacciavite nelle apposite fessure e fare leva
To take away the cover bracket, insert the screwdriver into the appropriate holes and work on it

5. Posizionare le staffe sulla porta tramite la dima (P2) e fissarle.

Place brackets on the door through template (P2) and fasten them.

6. Inserire le staffe nella struttura anteriore ed avvitare.

Regolare l'inclinazione della porta allentando le viti ed agendo sui grani.

Insert brackets on front structure and screw them.

Adjust tilt of the door by loosening screws and acting on grub screws.

7. Regolare l'inclinazione della porta, allentando le viti ed agendo sui grani

Adjust tilt of the door by loosening screws and acting on grub screws

8. Posizionare il fine corsa, la sua posizione determina +/- l'apertura della porta.

Place the end of stroke, its position defines +/- opening door.

9. Posizionare i cestelli.

Place the baskets.

MONTAGGIO COPRI STAFFA - COVER BRACKET ASSEMBLY

Montare il copri staffa dopo aver eseguito la regolazione
After the adjustment, assembly the cover bracket

SMONTAGGIO COPRI STAFFA - COVER BRACKET DISASSEMBLY

Per togliere il copri staffa, inserire il cacciavite nelle apposite fessure e fare leva
To take away the cover bracket, insert the screwdriver into the appropriate holes and work on it
