DRYWALL SCREWS

WHY THE PROS CHOOSE RZR

- 

Greater pitch for quicker penetration

- 

Faster threads (15TPI)

- 

Sharper than traditional screws

- 

For wood and metal studs: from 25-20 gauge steel

- 

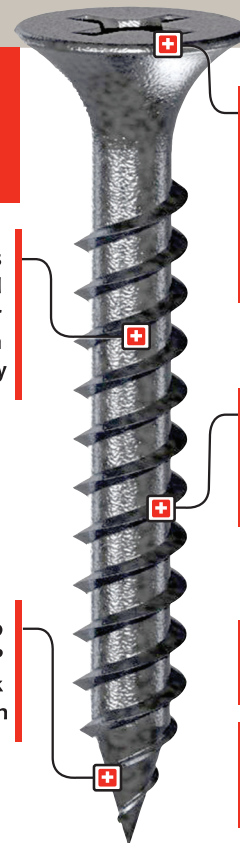

Quality controlled

Designed to exceed ASTM building standards

Sharper threads and accentuated pitch for maximum drivability

23° extra sharp RZR-TIP for quick action

RZR spec recess:

- Auto-centering
- Purposely designed to cam out with clutch tools

Hardened and tempered steel for maximum strength

Top quality grade steel

Made for the drywall PROS
